

POLICY NAME	Opioid Partial Agonists Reverse Edit Policy	POLICY #	1924P
--------------------	---	-----------------	-------

Criteria

Prevention of concurrent opioid prescription claims

- ☐ An electronic "reverse" step edit is in place on all generic and brand-name opioids.
 - Each prescription for an opioid will have a 90 day look-back for claims for Suboxone, Zubsolv, or generics.
 - If Suboxone, Zubsolv, or a generic version is found in member's pharmacy claims, then the opioid drug will reject for duplicate/inappropriate drug therapy.
- ☐ Provider will be required to submit chart note documentation and treatment plan to support medical necessity of the concurrent drug therapy to override reverse edit.
