

POLICY NAME	Dalfampridine	POLICY #	1854P
--------------------	---------------	-----------------	-------

Criteria

Coverage Criteria

- ☐ Diagnosis of multiple sclerosis (MS) Prescribed by a neurologist (nervous system doctor)
- ☐ Patient must be 18 years of age or older
- ☐ Ambulatory (able to walk)
- ☐ No history of seizures
- ☐ 25-foot walk Test Completion
 - Initial coverage: Member has completed two (2) in office 25-foot timed walk tests (with no more than five (5) minute break between tests) AND the average time is submitted as baseline
 - Continued coverage: Member has achieved a 20% decrease in time to walk 25 feet from baseline while on treatment with Ampyra
 - All walk tests must be conducted in office by ordering prescriber
- ☐ Documentation that patients with relapsing-remitting multiple sclerosis are on concurrent therapy with a disease modifying agent (such as Aubagio)

Authorization Criteria

- ☐ Initial approval: 12 months
- ☐ Subsequent approvals: 12 months approval based on therapeutic response defined as at least a 20% decrease in the average 25 foot walk test time compared to baseline

Discontinuation Criteria

- ☐ Experience a seizure, OR
- ☐ Kidney impairment with a creatinine clearance less than (<) 80mL/min, OR
- ☐ Wheelchair bound Criteria References
