POLICY NAME Voydeya (danicopan) POLICY # 3369P

Criteria

or eculizumab

Coverage Criteria for Paroxysmal Nocturnal Hemoglobinuria (PNH)	
	Diagnosis of paroxysmal nocturnal hemoglobinuria with evidence of clinically significant extravascular hemolysis (EVH) • Clinically significant EVH defined as hemoglobin ≤9.5 g/dL or absolute reticulocyte count ≥120 x 109/L
	Prescribed by or in consultation with a hematologist (blood disorder doctor)
	Age 18 years or older
	Lab cultures rule out any unresolved serious Nesseria meningitidis infection, if patient was diagnosed with N meningitidis infection recently
	Documentation of meningococcal vaccine series OR will receive vaccine at least 2 weeks prior to first dose (unless treatment cannot be delayed)
	Documentation to support patient is already established on ravulizumab or eculizumab for at least 6 months and Voydeya will be used as add-on therapy
	Review of chart notes documenting diagnosis and confirming that the patient has met all of the above requirements for treatment by both a pharmacist and medical director
Exclusion Criteria – Any of the following prevents coverage	

Voydeya will not be used in combination with another treatment for PNH other than ravulizumab
